PROFESSIONAL SUMMARY

Mern Stack Developer specializing in React.js, with a strong focus on debugging, code optimization and project collaboration. Committed to delivering high-quality applications that exceed user expectations. Passionate about creating user-centric applications that serve others and provide seamless experiences.

TECHNICAL EXPERTISE

Front-End Development

: JavaScript | React JS | Typescript | React Redux | Next JS | Tailwind CSS

Back-End Development

: Node JS | Express JS | MongoDB | JWT

Version Control & Hosting

: Git | GitHub | Firebase | Vercel | Netlify

PROJECT PORTFOLIO

1.Quick Bites (*Collaborative Project*) : [Live link](#) [Github Client](#)

- Secure Payment Integration: Seamlessly integrated SSLCommerz to enable safe, encrypted online transactions, enhancing customer trust and convenience
- Real-Time Support: Developed a responsive live chat system using Socket.io, enabling instant between users and administrators to improve support and engagement.
- Dynamic Discount Management: Built an intuitive coupon and discount module that allows administrators to create, update, and deactivate promotions, enhancing customer retention and sale.

Technology Stack: Next JS | React JS | Socket.io | Node JS | Express JS | NextAuth.JS | MongoDB | Tailwind CSS

2.FitnessQuest (*Web Application for Book Rentals*) :[Live Link](#) [Github Client](#) [Github Server](#)

- Secure Payment Integration: Seamlessly integrated SSLCommerz to enable safe, encrypted online transactions, enhancing customer trust and convenience.
- Comprehensive Admin Panel: A user-friendly admin panel for managing trainers, user requests, and overall platform operations.
- Seamless Booking Process: An intuitive booking experience guiding users from trainer selection to secure payment.
- Built-in Communication Channels: Enable smooth interactions between users, trainers, and admins for better collaboration and support.
- Detailed Analytics & Reports: Track performance, user activities, and platform growth effectively through robust analytics.

Technology Stack: React JS | Node JS | Express JS | JWT | MongoDB | Tailwind CSS

3. NaturalCraft (*Craft Showcasing and Management Platform*) :[Live Link](#) [Github Client](#) [Github Server](#)

- Efficient Product Management: Enabled users to add, modify, and manage their crafted products efficiently.
- Advanced Authentication: Secured user interactions through advanced authentication mechanisms.
- Amplified User-Generated Content: Highlighted user-generated content to amplify reach and visibility for handcrafted creations.

Technology Stack: React JS | Node JS | Express JS | MongoDB | Tailwind CSS

ACADEMIC BACKGROUND

Bachelor of Business Administration (BBA)

Language

Bangla

English
